

Shade & Texture Index

V1 = Uniform Appearance:

Differences among pieces from the same production run are minimal.

V2 = Slight Variation:

Clearly distinguishable texture and/or pattern within similar colors.

V3 = Moderate Variation:

While the colors present on a single piece of tile will be indicative of the colors to be expected on the other tiles, the amount of colors on each piece may vary significantly.

V4 = Substantial Variation:

Random color differences from tile to tile, so that one tile may have totally different colors from that on other tiles.

Thus, the final installation will be unique.
